Wow. Need I say more? I will anyway. Yes, I bit off more than I could chew hoping and thinking we could swim through the scenes with the kids since they already had practice, but that is not how it ended up.

We ran into a little snag with the kids being kids — I don't blame them — but we had work to do so I had to be a little stern and serious — a side of me that rarely comes out and you can all be proud that you found the last straw. **BUT WE MADE IT!** That is a wrap for Karissa Lee Carleton as Kimmie; Olivia Martinez Prado as Kyriè; Haley Klemp as Oceana; Kayla Rose as Meadow; Kayla Jagger as Sunshine; Kameron Woods as Forest; Adrien Bourassa as Sean; and Freddie Olmos as Aria. I thank you and your parents for your time, effort, and patience — **THANK YOU!**

This newsletter is specifically for viewing by all members helping in the production of Petite Chardonnay; however, you may share it with others.

Future newsletters may be limited and for your viewing only, but as of now, nothing in this is to revealing about the story, the production, or the cast & crew, so share away if you please.

- Sunday, November 13: Interior: Michael Klemp, Gretta Sosine, Gary L. Conover, and Karyl Avva.

Jim Heck and Jeffrey C. Vanacore went on the road with Charlie Merlo as Jessie Kreger and Gretta Sosine as Teresa Marie Oak and came back with some amazing clips and performances — although would like some pick ups.

Gary L. Conover as Richard James Oak; Michael Klemp as Michael Robert Oak; and Karly Avva as ...well you know ... met up with Gretta and Charlie after lunch for a climactic, energized, and intense scene — I know, I was in the middle of it with the steady-cam. Michael Klemp said it best. “I had to look around and remind myself this was a movie cause it felt and looked so real.”

Photographs and Proper Use

I know most of you — well actors anyway, we know how vain you are — want to have photographs of you working and taken by our talented photographers Patricia Collins, George Ann Heck, Mark Hoffman, Lisa West, Brendan Brooks, and Jim Heck. Well you can and all you have to do is ask.

• How can you use them?

Anyway you want, but you cannot make money with them without permission from Aria Pictures and the photographer.

• Rules for use and posting

They are your pictures too, yes; however, we have one simple request, you credit Aria Pictures and the photographer where ever you post them. And we also hope you put the link for the website
<https://www.chardonnaymovie.com> or
<https://www.ariapictures.com>.

Create a buzz, share the hard work you have done

Again, for those that do not know me will learn that I am a different kind of person; unusual; in a sense, unique — I go against the grain only because I know the rules and know how to break them.

With that in mind you will learn quickly that I give credit when and where it is due, and I understand it is because of the help that I get that the project comes to fruition, the story comes alive, and you make me look good.

In so doing, I know, and I will educate you until you learn it, this movie is **NOT** just my movie, it is yours as well. Everyone has something at stake and we all can make or break each other,; so it would behoove each one of us to spread the word and create a buzz in your family, friends, associates — your circle and tell that circle to spread it amongst heir circle — it can only help us on this journey we take together.

— I am honored that you are letting me to walking side by side with you on this wonderful journey.
